

# ATLANTA CLASSICAL ACADEMY

## College Advising: SAT Subject Tests WHICH TESTS SHOULD YOU TAKE?

Take SAT Subject Tests in your strong subjects that are not covered by AP. We offer AP Biology, Chemistry, and Art History. We will offer Latin and Calculus in the 2018-2019 school year.

SAT Subject Tests offer another way to highlight your excellence in a subject and should be seen as a complement to your academic record. Your score, particularly if it is high, will help to round out your application and indicate your interests.

Plan to take your tests during your junior year (May and June) or the first semester of your senior year (August.)

### SAT Subject Test Disciplines

Chemistry	Biology – (Ecology or Molecular)
